Education

School and Achievements

Primary and Secondary school

My academic journey started at Selam Children's Village, which has since transformed into Rofam Academy. I spent a formative twelve years there, from elementary school to high school graduation. Rofam Academy was more than just a school; it was my second home for twelve incredible years. I'm proud to say I consistently ranked among the top three students in my class during that time.

University

AAIT became my second home during my two-year university experience. The 6kilo dormitory was more than just a place to stay; it was a community. I'm excited to continue my coding journey, which began at this wonderful university.
